

Kyle van Berk is a member of the Fengate Infrastructure management team and responsible for managing P3 projects across South Western Ontario. His resume includes the Toronto South Detention Centre and Woodstock General Hospital.

Prior to joining Fengate in 2017, Kyle was a senior member of the P3 facilities management divisions at Honeywell and SNC-Lavalin, managing multiple projects across Canada. Both are major facilities management service providers on Canadian P3 projects and have large international business units in construction and engineering.

Kyle holds a bachelor's degree in Architecture – Project & Facilities Management from Conestoga College ITAL and an FMP designation from the International Facilities Management Association.
